

Journal of Veterinary Medical and One Health Research

Scope

[Established: June 2019]

www.lepvmbj.org

- The 'JVMOHR' is an international peer-reviewed open-access scholarly journal primarily published yearly volumes of two issues in June and December by LEP, both print and online, since 2019.
- The 'JVMOHR' publishes original research papers and reviews of all the subjects of veterinary medical sciences and technology required for dual degrees (BS in Animal Sciences and DVM) and research on veterinary and human medical sciences associated with 'One Health' activities.
- The 'JVMOHR' will be unique in its discipline by setting standards in the field of veterinary, medical and allied sciences to make a multidisciplinary education and research with a complex collaborative platform 'One Health' for rapid communication of scientific knowledge of human, animals and environmental health especially pathogens transmitted among animals, humans and environment.

Justification of the Journal name, 'JVMOHR'

Approximately 245 journals are presently dedicated to the veterinary medical field, and about 1019413 articles are being published annually all over the world (Omics International). Some important titles of the veterinary medical science (animal science) and related journals are listed:

- | | |
|---|---|
| ●Animal Welfare | ●Annual Review of Animal Biosciences |
| ●Archives of Animal Nutrition | ●Avian Diseases |
| ●Avian Pathology | ●Avian Research |
| ●Annals of Veterinary and Animal Sciences | ●BMC Veterinary Research |
| ●Buffalo Bulletin | ●Buffalo Journal |
| ●Frontiers in Veterinary Science | ●Journal of Advanced Vet & Animal Science |
| ●Journal of Advanced Vet & Animal Research | ●Journal of Agriculture and Veterinary Science |
| ●Journal of Animal and Plant Science | ●Journal of Animal Health |
| ●Journal of Animal Health and Production | ●Journal of Animal Science |
| ●Journal of Animal Research | ●Journal of Applied Animal Science |
| ●Journal of Applied Animal Research | ●Journal of Animal and Veterinary Advances |
| ●Journal of Animal and Veterinary Science | ●Journal of Applied Animal Research |
| ●Journal of Comparative Pathology | ●Journal of Fisheries and Livestock Production |
| ●Journal of Food Science & Animal Resources | ●Journal of Livestock Science |
| ●Journal of Livestock Research | ●Journal of Dairy Science |
| ●Journal of Dairy Research | ●Journal of Dairy Science and Technology |
| ●Journal of Veterinary Advances | ●Journal of Veterinary Archive |
| ●Journal of Veterinary Diagnostic Investigation | ●Journal of Veterinary Science |
| ●Journal of Veterinary Services | ●Journal of Vet Science and Animal Husbandry |
| ●Journal of Veterinary and Animal Sciences | ●Journal of Veterinary Science and Technology |
| ●Journal of Veterinary Science and Medicine | ●Journal of Vet Science and Medical Diagnosis |
| ●Journal of Veterinary Medical Association | ●Journal of Avian Science |
| ●Journal of Poultry Science | ●Journal of Animal Nutrition |
| ●Journal of Animal Genetics and Breeding | ●Journal of Animal and Fisheries Science |
| ●Journal of Veterinary Anatomy & Histology | ●J. of Vet Behavior: Clinical Applications & Res. |
| ●Journal of Veterinary Cardiology | ●Journal of Veterinary Physiology |
| ●Journal of Veterinary Medical Science | ●Journal of Veterinary Internal Medicine |
| ●Journal of Veterinary Surgery | ●Journal of Veterinary Obstetrics and Gynecology |

- Journal of Veterinary Theriogenology
- Journal of Zoo and Wildlife Medicine
- Journal of Swine Health and Production
- Journal of Veterinary and critical Care
- Journal of Veterinary Medical Education
- Journal of Veterinary Public Health
- Livestock Research for Rural Development
- Medical and Veterinary Entomology
- Parasitology Research
- Reproduction in Domestic Animals
- Research Journal of Veterinary Practitioners
- Research Journal of Veterinary Science
- Scientific Journal of Veterinary Advances
- The Veterinary Journal (1875)
- Veterinarian
- Veterinary and Comparative Oncology
- Veterinary Dermatology
- Veterinary Medicine International
- Veterinary Microbiology
- Veterinary Pathology
- Veterinary Record
- Veterinary Research Communication
- Veterinary Scan
- Veterinary World
- Journal of Veterinary Research
- Journal of Avian Medicine and Surgery
- Journal of Small Animal Practice
- Journal of Veterinary Medical Association
- Journal of Vet Clinical Practice and Pet care
- Journal of One Health
- Livestock Science
- One Health Journal
- Preventive Veterinary Medicine
- Research in Agriculture, Livestock and Fisheries
- Research Journal of Dairy Science
- Research in Veterinary Science
- Small Ruminant Research
- Tropical Animal Health and Production
- Veterinary Anesthesia and Analgesia
- Veterinary Clinical pathology
- Veterinary Immunology and Immunopathology
- Veterinary Medical Review
- Veterinary Parasitology
- Veterinary Radiology and Ultrasound
- Veterinary Research
- Veterinary Review
- Veterinary Surgery
- Zoonoses and Public Health

☞ Mainly country names, international and /or advanced terms are used in the journal name, like Bangladesh Veterinary Journal, International Journal of Veterinary Science and Technology, Journal of Advanced Veterinary and Animal Research, and others.

- The main scopes of these veterinary journals include ‘all the aspects of veterinary science and related aspects’ except some specialized title journals like Journal of Microbiology, Journal of Parasitology, and others.
- This wide-range scope has been used by different journals of veterinary and animal sciences, which may be due to ignoring the definition and scope of the terminology veterinary, veterinary science, animal husbandry, animal science, veterinary medicine, veterinary medical, and others. In addition, some have used the term international and advanced in the title. All these inappropriate scopes under different titles of the journal have been explained in the article, “**Samad MA (2017). Current status and challenges for globalisation of veterinary medical education for the ‘One Health’ programme. *Rev. Sci. Tech. Off. Int. Epiz.* 36 (3): 741-765.**”

In addition, the international term refers to all or at least two or more nations (Princeton’s WorldNet). Accordingly, all online journals can be considered international journals, except for those without an impact factor. However, some journals, despite lacking an impact factor, are titled as international. Some journals added advanced words in their title, whereas advanced in science means ‘being beyond the elementary or introductory’ (Merriam-Webster). In contrast, the scope of these journals includes all aspects of veterinary and animal sciences. However, it is challenging to interpret and apply the term "advanced" in Veterinary Science and medicine.

To present and include all the aspects of veterinary science (animal science), veterinary medicine and technology with ‘One Health’ aspects, there is a need of a comprehensive title of a journal that includes all concerned aspects and that is why, the ‘JVMOHR’ title has been selected to cover all the aspects of national, international, elementary, advanced, science, health, husbandry, production, biomedical, animal welfare, technology, research, education, extension, clinical practice, disease, hosts (animals & birds), resources, zoonoses, public health, food safety, archive and all other related aspects.

Reasons for selection of the 'JVMOHR'

- Appropriately wide range of the JVMOHR
- Open access publishing, i.e., visibility of articles all over the world.
- Quality and potential of the concerned professional reviewers
- Impartial peer review of articles with helpful criticism
- Fruitful suggestions to improve the manuscript
- Swift processing and publication process as per schedule
- Minimum publication charges

Therefore, publish your professional review and research articles in the right veterinary medical professional journal to upgrade the veterinary medical education and research directly for society's needs nationally and globally.
